Identity Web

Example completed student web — every web is unique

Each branch is filled by the student. No two webs look the same — that is the point.

— STEP-BY-STEP STUDENT INSTRUCTIONS —

1
START

Students draw their *name* in the centre circle.

2
BUILD

Five branches radiate out — one per prompt. Each branch can be a drawing, a few words, or both.

3
CLOSE

Branch 5 is optional — students do not need to share it. Every web is valid; every answer is right.

TEACHER NOTE

Model your own web first on the anchor chart before distributing. Students do not need to share Branch 5. Every web is valid — every answer is right.

Drawing Activities (K·2)

The complete set is part of the Architecture of Grace district curriculum. Educators can license the full library; families can find materials in the family store.
