

PILOT QUICK-START

*Self-Reflection***For Leadership**

A five-minute look built around the decision, not the classroom.

1 See the why

Go to architectureofgrace.org and tap Explore the Framework — the four pillars and how one answer becomes a next step.

2 Explore with demo data

Open the Dashboard, then Load demo data to see Overview and Class trends on a sample group.

3 Open the MTSS report

Dashboard > MTSS Report (gold button): Individual / Class / School-wide, tier movement, auto summary, CSV + print cover.

4 Check the data story

Privacy is on-device by default — no account, no login. Schools can optionally sync to their own Google Sheet. See Export & data.

5 Picture rollout

The Distribute tab makes a link or QR for a class — no code, no login. The Library holds the curriculum.

Pair it with the Calm & Regulation Tools

Under Explore > Calm & Regulation Tools you'll find short, guided resets — breathing, Take 5, 5-4-3-2-1 grounding, movement, and more. They're the bridge between noticing and doing: Right Now opens straight into the matching tool for the moment, and when the Self-Reflection shows a domain running low, these are the one- or two-minute resets that help someone settle before getting back to learning.

Next: Share your read on reporting, privacy, and rollout — it's what moves this from promising to adopted. Thank you for considering this for your schools.
