

PILOT QUICK-START

Self-Reflection

For Parents & Families

Five quiet minutes with your child. Everything stays private on your device.

1 Open the site

Go to architectureofgrace.org on your phone, tablet, or computer.

2 Set up Family Mode

Tap Take the Self-Reflection > Family Mode, and add each child once.

3 Reflect together

Let your child answer honestly — there are no wrong answers.

4 Talk it through

Read the results together and use the conversation starters (you can print them).

5 Make it theirs

Nothing is sent anywhere. Use Personalize (sliders icon) to set the Word of Grace to Child or Teen.

Pair it with the Calm & Regulation Tools

Under Explore > Calm & Regulation Tools you'll find short, guided resets — breathing, Take 5, 5-4-3-2-1 grounding, movement, and more. They're the bridge between noticing and doing: Right Now opens straight into the matching tool for the moment, and when the Self-Reflection shows a domain running low, these are the one- or two-minute resets that help someone settle before getting back to learning. Your family's privacy Everything stays on your device. Your child's answers, written reflections, and results are saved only in this browser, on this device — no account, no login, no tracking. Nothing is sent to us or anyone else. The optional Google Sheet sync is a school-only feature and is never used in Family Mode. You can clear everything at any time.

Next: Fill out the Parent Feedback Form. Thank you for helping us make this better for families.
