Before You Begin

What changes for Book Two at moderate support needs

This supplement is the same ten anchor charts from *Architecture of Grace · Book Two · The Framework*, redesigned by a multidisciplinary team — autism specialist, school psychologist, school social worker, special education teacher, speech-language pathologist, and occupational therapist — with autistic learners with **moderate support needs** at Grades 3–5 held as the design audience.

What did NOT change

- Every construct — *Inner Critic*, *Inner Coach*, *Heavy Backpack*, *Grace*, *Forgiveness*, *Trust* — is preserved.
- The theoretical foundation — Brown, Neff, Enright & Fitzgibbons, Worthington, Siegel — is preserved.
- The four Non-Negotiable Agreements and Disclosure Protocol are unchanged.

What changed

- **Reduced text · larger type · more symbols.** AAC-compatible.
- **First-Then and Choice Board structures** replace open-ended reflection. Pointing is a full response.
- **Inner Critic vs. Inner Coach is renamed** on the chart as "*Mean Thoughts vs. Helpful Thoughts*" — literal naming. The construct is the same.
- **Every chart includes an Adult Script.**
- **Window of Tolerance is reframed** as a 3-zone choice board with body cues — same Siegel framework, accessible format.

The masking question at this age

Grades 3–5 is where masking begins to develop in Level 2 students too — often through compliance routines drilled at home and in early intervention. Watch for the cost. **The student who never says no may not have learned that "no" is allowed.**

A NOTE ON CO-REGULATION AT 3–5

By Grades 3–5, some Level 2 students can begin to use these charts more independently — but co-regulation remains the model. The Adult Script is the heart of each chart. Read it aloud. Use it as a known routine.

My Picture

What I'm made of

This is me.

Things I LOVE

special interests count

Things I'm GOOD AT

small things count too

Things That MATTER to me

what I care about

How my BRAIN & BODY work

what helps me · what I need

*All of these are **me**.*

ADULT SCRIPT · WHAT THE GROWN-UP SAYS

"This is your picture. There is no wrong way. You can draw, point, write, or stay quiet. Pick one box. Tell me — or show me — one thing for that box. (wait) That goes in your picture."

SPECIALIST NOTE · FOR THE TEACHER

The fourth box ("How my brain & body work") explicitly names sensory needs and processing differences as part of identity. Many Level 2 students will fill this box with sensory regulators — quiet, music, headphones, fidgets, weighted blankets — and that is identity work, not a deficit list. Honor the answers given. Build over multiple lessons if needed.

My Feelings

Where I feel it · What it is · What I need

HAPPY

SAD

ANGRY

SCARED

TOO MUCH

WORRIED

PROUD

NOT SURE

WHERE DO I FEEL IT?

Head · Throat · Chest · Belly · Hands · Legs · Everywhere · Not sure

ADULT SCRIPT · WHAT THE GROWN-UP SAYS

"Point to a feeling. (wait) Now show me where you feel it. (wait) What do you need? Choose one: hug · break · quiet · person with me · move my body."

SPECIALIST NOTE · FOR THE TEACHER

"NOT SURE" stays on the chart — many Level 2 students have significant interoception differences. The body locations are deliberately broad. Pair with a body-outline diagram and need-cards (hug, break, quiet, person, move). The point-tap response is a full answer.
