Before You Begin

Why Book 5 MS contains more REPLACEMENTS than any other edition

Book 5 is the curriculum's most abstract book. Transcendent Forgiveness. The Cost of Bitterness. The Living Amend. Graduation of the Heart. These constructs were written for senior-year students who have spent twelve years in school, accumulated significant interior life, and can hold a sustained metaphor across a 70-minute lesson.

Many constructs in Book 5 do NOT translate to concrete language without losing their core meaning. Rather than dilute the lesson into something it is not, this edition REPLACES those constructs with companion lessons that aim at the same student outcome through different scaffolding.

Every replacement is named below. We do not pretend they are the original lesson.

REPLACEMENTS in this edition

- The Living Amend (U2L1) is REPLACED with My Promise to Do It Differently. Same student outcome: behavior change as repair when direct repair is not possible. Different scaffold: a concrete written promise the student can refer back to.
- Forgiving the Younger Self (U2L2) is REPLACED with A Note to Younger Me. Pre-written letter template with three blanks. Same intent, scaffolded.
- Forgiveness Fatigue (U2L5) is REPLACED with My Battery Is Empty. Reuses the battery construct from Book 4 — the student already knows it.
- Releasing the Childhood Backpack (U3L2) is REPLACED with The Heavy Things List. Same construct as Book 4 U2L7 with senior-year content.
- Complex Reconciliation (U3L3) is REPLACED with The Family Rule Card. The Hard/Unsafe distinction applied to family — single rule, no hedging.
- Global Empathy (U3L4) is REPLACED with When the News Gets Big. Simple body-first protocol for when the world is too loud.
- The Cost of Bitterness (U3L5) is REPLACED with The Heavy Sack Picture. Same lesson scaffolded as a physical metaphor the student can point to.
- Forgiveness as Legacy (U3L6) is REPLACED with What Stops With Me. Three-generation frame, very simple.
- Counseling vs. Canceling (U4L3) is REPLACED with FIX IT or STOP. Same lesson, two clear options.
- Charitable Interpretation at Scale (U4L4) is REPLACED with Watch the Group Pattern. The Book 4 pattern-tracking guardrail extended to groups.

What is NOT replaced

- Graduation of the Heart (U3L7) is preserved in concrete form. This is the closing artifact of the K-12 arc — moderate-support students participate fully. The same three commitments. The same crisis-resources panel. Simpler language throughout.
- Mental Health Literacy (U2L3) is preserved in full. The post-IEP cliff content, the crisis resources, and the autism-adolescent risk addendum are non-negotiable at every support level.
- Final Backpack Audit (U2L7) is preserved as a scaffolded version. Counselor co-facilitation REQUIRED, as in the LS edition.

THIS EDITION DOES NOT DILUTE THE CULMINATING LESSON

Graduation of the Heart — the highest-risk lesson in the entire K-12 arc — is taught to moderate-support students with the same gravity, the same counselor presence, the same crisis-resources panel, and the same protections (NOT in graduation week, MANDATORY counselor co-facilitation, AFSP Safe Messaging Guidelines applied). The language is simpler. The lesson is not.

What I Take With Me

Twelve years of school. What I keep. What I leave at the door.

I LEAVE	I TAKE
What the school made me do that I do not want to keep.	What I learned that is mine.

I get to choose. Not everyone chooses. I do.

SPECIALIST NOTE • FOR THE TEACHER

Opening chart of Book 5 MS. The two-column structure makes the leaving / taking choice visible and binary. For moderate-support autistic students, the lesson is permission: not everything that happened to you in twelve years of school has to come with you. Some students will need help generating items for the LEAVE column. That is part of the lesson. Coach gently.

POST Day 1 of Book 5.	KEEP All year.
------------------------------	-----------------------

What I Believe

Three things. Mine. Not anybody else's.

RULE

RULE: My values are mine. I get to write them.

I believe _____
I believe _____
I believe _____

Three things I would not stop saying — even if people told me to.

SPECIALIST NOTE • FOR THE TEACHER

The three-blank-line frame is more usable for moderate-support students than the four-quadrant frame in the LS edition. Examples to coach (without imposing): 'I believe lying is wrong.' 'I believe people should be kind to animals.' 'I believe autistic people are real people.' The student fills in what is theirs. Honor what they write — even if you would have phrased it differently.

POST Before class.	KEEP Carried forward.
