Universal Check-In — Pilot Feedback

For Teachers & Educators

Thank you for piloting the check-in with your students. This takes about 6–8 minutes. Be candid — what confused a student or broke on your device is the most useful thing you can tell us. There are no wrong answers.

1 · The Welcome (Hero) Page

Your very first impression when the site loads.

The opening page made the purpose clear within a few seconds.	☐	☐	☐	☐	☐
It felt calm and trustworthy — not clinical or salesy.	☐	☐	☐	☐	☐
It was obvious what to do next (the three doors / options).	☐	☐	☐	☐	☐
It's polished enough that I'd comfortably show it to a colleague or parent.	☐	☐	☐	☐	☐

2 · Explore the Framework

The four pillars (Identity, Self-Compassion, Forgiveness, Grace), the “How one answer becomes growth” walkthrough, the Resource Index, and linked lesson/story materials.

The four pillars were easy to understand.	☐	☐	☐	☐	☐
The “How one answer becomes growth” walkthrough made the closed-loop system clear.	☐	☐	☐	☐	☐
The Resource Index helped me find relevant lessons or stories.	☐	☐	☐	☐	☐
The linked lesson and story materials were genuinely useful.	☐	☐	☐	☐	☐

The reflection itself — the questions, scoring, and results view.

The results felt accurate and useful to me.	☐	☐	☐	☐	☐
The results read as kind and supportive, not as a scorecard.	☐	☐	☐	☐	☐

4 · Calm & Regulation Tools

Which tools did you or your students actually try? (check all that apply)

The tools were easy for students to use on their own.	☐	☐	☐	☐	☐

If a tool helped in a real moment, tell us what happened:

Any tool that was confusing, unused, or didn't work well?

5 · Personal Touches & Polish

Daily Word of Grace, Personalize menu (audience, accent color, optional sound), and the streak / "time back" moment after a calm tool.

Statement	Strongly disagree	Disagree	Neutral	Agree	Strongly agree
The daily Word of Grace felt meaningful and age-appropriate.	☐	☐	☐	☐	☐
Tailoring the message by audience (Child / Teen / Adult) was useful.	☐	☐	☐	☐	☐
The Personalize options (accent color, optional sound) were easy to find and use.	☐	☐	☐	☐	☐
The calm-tool finish (streak + time-back note) felt encouraging, not gimmicky.	☐	☐	☐	☐	☐

Overall — Did It Help?

Statement	Strongly disagree	Disagree	Neutral	Agree	Strongly agree
This helped me understand a student a little better.	☐	☐	☐	☐	☐
It led to a real next step — a lesson, a conversation, or a plan.	☐	☐	☐	☐	☐

Would you use this again? ☐ Yes ☐ Maybe ☐ No

How likely are you to recommend it to a colleague? Not likely 0 — 1 — 2 — 3 — 4 — 5 — 6 — 7 — 8 — 9 — 10
Extremely likely (circle one)

In Your Own Words

Which of the five areas above worked best, and why?

One thing that confused a student or broke:

One thing you would add or change:

Any wellbeing or safety concern we should know about? (For anything urgent about a specific student, follow your school's safeguarding protocol first.)

Thank you. Your honest read is what turns a good tool into the right one.

Addendum — new features

Growth, Goals & Home-School

These features may be newer to your pilot. Skip any you didn't use — mark "Didn't use."

Statement	Strongly disagree	Disagree	Neutral	Agree	Strongly agree	Didn't use
The Trajectory tab made a student's growth across windows and years easy to read.	☐	☐	☐	☐	☐	☐
Seeing a student's school and home check-ins on one chart (the Both view) was valuable.	☐	☐	☐	☐	☐	☐
The Goal Builder turned a check-in into a usable, relationship-centered IEP goal.	☐	☐	☐	☐	☐	☐
Monitoring progress on the same screen would save me time.	☐	☐	☐	☐	☐	☐
The "What helps me" picker on the results screen felt worthwhile for students.	☐	☐	☐	☐	☐	☐

Anything about these features that helped, confused, or got in the way?

Thank you. Your read on these newer features is especially useful while they are fresh.
