

QUICK-START

Universal Check-In

For Parents & Families

Welcome. Here's the five-minute way to do your first check-in at home with your child.

1

Open the site

Go to architectureofgrace.org on your phone, tablet, or computer.

2

Set up Family Mode

Tap **Take the Check-In** › **Family Mode**, and add each child once.

3

Check in together

Let your child answer honestly — there are no wrong answers.

4

Talk it through

Read the results together and use the conversation starters (you can print them).

5

Make it theirs

Nothing is sent anywhere. Use **Personalize** (sliders icon) to set the Word of Grace to Child or Teen.

Pair it with the Calm & Regulation Tools

Under **Explore** › **Calm & Regulation Tools** you'll find short, guided resets — breathing, Take 5, 5-4-3-2-1 grounding, movement, and more. They're the bridge between noticing and doing: **Right Now** opens straight into the matching tool for the moment, and when the **Check-In** shows a domain running low, these are the one- or two-minute resets that help someone settle before getting back to learning.

Your family's privacy

Everything stays on your device. Your child's answers, written reflections, and results are saved only in this browser, on this device — **no account, no login, no tracking**. Nothing is sent to us or anyone else. The optional Google Sheet sync is a school-only feature and is **never used in Family Mode**. You can clear everything at any time.

Tried it and want to share how it went? Open the **Pilot Program** page, choose your role, and send feedback — fill it out online right there, or print the form.

Thank you for the five quiet minutes.
