

QUICK-START

Universal Check-In

For Specialists & Support Staff

New here? Here's the five-minute way to run and read your first check-in, wherever you work across tiers.

1

Open the site

Go to architectureofgrace.org (laptop, tablet, or phone). It works offline once loaded.

2

See how it connects

Tap **Explore the Framework** — the four pillars and how one answer becomes a next step.

3

Run a check-in

Take the Check-In › Student Check-In › grade band › Quick or Thorough, with a student you support.

4

Open the MTSS report

Dashboard › **MTSS Report** (gold button) for tier movement and an auto summary. No data? Load demo data.

5

Find the materials

The Library maps lessons, anchor charts, and scenario cards to each need.

Pair it with the Calm & Regulation Tools

Under **Explore** › **Calm & Regulation Tools** you'll find short, guided resets — breathing, Take 5, 5-4-3-2-1 grounding, movement, and more. They're the bridge between noticing and doing: **Right Now** opens straight into the matching tool for the moment, and when the **Check-In** shows a domain running low, these are the one- or two-minute resets that help someone settle before getting back to learning.

Tried it and want to share how it went? Open the **Pilot Program** page, choose your role, and send feedback — fill it out online right there, or print the form.

Thank you for bringing your perspective across classrooms and tiers.
